

# Remote Learning Resources

for Texas parents

## Keep Kids Curious

Tailoring lesson plans to a student's specific interests keeps them curious, engaged, and eager to learn! Whether supporting STEM by baking or applying lessons to sports, find the right interest-based opportunity for your student [here](#).

## take a virtual field trip

Visit the Smithsonian, explore NASA's research center, take a walk on Mars, or tour the Great Wall -- all in the comfort of your own home! Virtual field trip opportunities will keep things exciting and entertaining for your student. Need ideas? [Click here!](#)

## Learn as a family

Enjoy some time as a family and engage your students with a number of family-led educational experiences for ages 3 to 12. [This collection](#) of free activities from Microsoft encourages families to learn, do, and share together!

## set the environment

Having a designated study space that is quiet and comfortable helps children to focus and retain information from their lessons. For tips and tricks on creating the perfect learning environment for your child, [click here](#).

## get support

Educating your child from home can be stressful and overwhelming. Need help? Take advantage of [online office hours](#) that give parents the opportunity to ask questions & seek support from teachers, tutors, and administrators in real time.

## support early learning

Supporting instructional continuity is critical for any student's future success, but especially those in early childhood. [These at-home resources](#) for early learners will help keep your child on track and on time once returning to the classroom.

## utilize online resources

Incorporating videos, interactive games, and online learning challenges keeps at-home learning exciting and engaging! Check out the many free resources at [Scholastic](#), [LearnZillion](#), and [TexasHomeLearning.org](#).
